VOL. 5, No. 37 JOSHUA TREE, SAN BERNARDINO COUNTY, CALIFORNIA WEDNESDAY, MAY 31, 1950 5c PER COPY

"When He Says Scat He Means It!"

PIONEERTOWN — Whenever you old-timers start bragging about how you used to fight wildcats single handed, with a .22 rifle, better look around to see if young Roy Kee isn't listening; he might find the yarn rather boring. Young "Frank Buck" scorns the use of man-made weapons; that's just for sissies. He catches 'em bare handed.

Last week a wild cat was caught in a trap near the Sky-line Ranch. Armed with only a gunny sack, Roy and his older brother "Corky" removed the uninjured cat and stored him in a deserted henhouse for future reference. Word got around and soon a posse armed with pistols and rifles gathered. Roy's father, Johnny Kee, brought the dogs and all was set for the big show, but the poor, scared cat stayed put.

Any show is a flop if the principle character doesn't make his cue, so young Roy went "back stage." After considerable coaxing with a stick, scrambling behind boxes and other props, with no progress towards a stage entrance, Roy got mad, grabbed the cat by the scruff and threw him out. The wild scramble inside the chicken coop was mild compared to what happened outside. However, Johnny's dogs were on the alert and one quick snap of powerful jaws ended the show. Two days later another cat turned loose from a trap into the dry brush-land was tracked and caught by the dogs. Pardon me! What was that story you were going to tell us, old-timer?

New Telephone Rates

MONROVIA — An amended application for an increase in telephone rates has been filed with the Public Utilities Commission by the California Water & Telephone Company, according to Mr. E. R. Fisher, district manager. An original application for higher rates was filed in September, 1947, and in December of that year the Commission allowed the company a small interim increase to provide an additional revenue of $105,000. Wage increases made since the granting of this interim rate increase alone have consumed more than 70 per cent of the additional revenue, Mr. Fisher said.

Rate increases asked for will be 25c for residence telephones and 25c to 75c for business telephones.

Hutch Sez:

The eager intellect, The inquiring mind never grow old.

Hi-way Maniac Kills Ted Holderman

TWENTYNINE PALMS — Ted Holderman, local beverage distributor, died as a result of injuries received last week when his truck was forced off the 29 Palms Hiway by a "hot-rod happy" fool. According to Holderman, the other driver refused to dim his lights and forced his truck off the road when he (Holderman) turned his bright beams back on. Dr. Dean Fairbanks heard the resultant crash and went to Holderman's aid. According to Dr. Fairbanks the reckless driver turned off his lights and fled the scene.

Twice in the past week, possibly the same driver, has forced at least two other motorists off the road in the same manner., Constable Jack Cones has asked that all drivers be on the look-out for this maniac and if possible to report his license number. Dr. Fairbanks reports that the car, possibly a "souped-up" Ford or Chevy of about 1940 vintage, has a loud exhause.

Barbeque Feeds Record Crowd

MORONGO VALLEY — Over five hundred persons visited the Double Oh Ranch in Morongo Valley, Sunday, May 28th, for the Annual Morongo Valley Chamber of Commerce barbecue. Owner, Bobbie Garcia, turned over his swank club to the Chamber of Commerce and its guests and made this year's annual affair the most enjoyable ever.

Mr. Carmon turned out the best barbecued beef and sauce that we have ever tasted in a long time, and (with no pun intended) the crowd really ate it up. The Women's Club baked pies and made salad for the dinner. The committee, under chairmanship of Geil, set up booths for the entertainment of the guests., who came from all over the valley and Palm Springs. Several candidates for political offices were present, including Carl T Rimbaugh.

T'row Da Bum Out!

TWENTYNINE PALMS — The Joshua Desert soft-ball season got under way with the Joshua Tree Cubs taking the edge in two of their first three games. In their first game against the Twentynine Palms Lions Club team they lost a 5-7 game. The second game put the Cubs winner by one run at 15-14, over the Eagles. Third game began to put the Cubs in their usual stride by taking the Rotarians 9-6.

Brown and Frye top the batting average list so far with each an even five-hnudred. The following is the schedule for the coming season, and offers some really hot games.

Soft-ball Schedule

May 1 — Rotary vs Joshua Tree
May 5 — Eagles vs. Lions
May 8 — Joshua Tree vs Lions
May 12 — Rotary vs Eagles
May 19 — Lions vs Rotary
May 22 — Lions vs Eagles
May 29 — Lions vs Joshua Tree
June 2 — Eagles vs Rotary
June 5 — Rotary vs Lions
June 9 — Joshua Tree vs Eagles
June 12 — Rotary vs Joshua Tree
June 14 — Eagles vs Lions
June 19 — Rotray vs Eagles
June 21 — Joshua Tree vs Lions
June 26 — Lions vs Rotray
June 28 — Eagles vs Joshua Tree
July 3 — Joshua Tree vs Rotary
July 5 — Lions vs Eagles
July 10 — Eagles vs Rotary
July 12 — Lions vs Joshua Tree
July 17 — Rotary vs Lions
July 19 — Joshua Tree vs Eagles
July 24 — Rotary vs Joshua Tree
July 26 — Eagles vs Lions
July 31 — Rotary vs Eagles
Aug. 2 — Joshua Tree vs Lions
Aug. 7 — Lions vs Rotary
Aug. 9 — Eagles vs Joshua Tree

Gift for Greenliner

JOSHUA TREE — At the suggestion of the Joshua Tree Chamber of Commerce Bud Roddenberger, local man who makes with the leather in beautiful hand-tooled purses, wallets, etc., for the ladies and the gents, has designed a gift for the Kentucky backers of the shined, shellaced and streamlined hunk of turtle flesh, otherwise known as "Greenliner" which was TWAed to Joshua Tree from Covington, Kentucky, for the 5th Annual Turtle Races. The trophy has a "desert air", being entirely made from local products. The base is a round sawed slab of a deceased Joshua tree, circled with leather and held in place with silver studs, upon which is mounted cholla cactus end on this "rests" Greenliner. The trophy will be on display for the balance of this week at the office of Sarah Mitchell, Secretary of the Chamber of Commerce, after which it will be sent to the Green Line Public Relations Director. Incidentally, Bud donated his time and all materials comprising the trophy, which is unique in that it is entirely desert. Bud has his workshop at his home on Park Boulevard near the Community Hall, and anyone desiring to see his products can call there. Bud is a veteran of World War II and is living here with his family in our salubrious climate for his health.

Cong. Sheppard to Speak in J. T.

THURSDAY, JUNE 1, 1:30 P.M.

The Honorable Harry R. Sheppard, our Representative in Congress, will be the guest of honor The dinner is being sponsored by served at noon, Thursday, June 1. The dinner is beisg sponsored by the officers of the Joshua Tree Community Association. See Jim Shearn for tickets.

After the dinner Mr. Sheppard will make a public address to the people of this area in which he will discuss and explain issues of vital importance to the country, and to this locality in particular.

Everyone is invited to be at the Shearn Building, 1:30 p.m., Thursday, June 1, to welcome and hear Congressman Sheppard!

F. F. BRANTHOOVER, Pres.
Joshua Tree Community Assn.

Pioneer Desert Realty Holds Dinner Meet

PIONEERTOWN — The Pioneer Desert Realty Board held a dinner meeting at the Golden Stallion last May 16th at which forty-eight realtors and guests enjoyed a Chinese dinner. Guest speakers of the evening were Mr. Joseph Wasserburger, president of the Joshua Monument National Bank of Twentynine Palms who discussed the "New FHA Set-up," and Mr. E. E. Stidham, Sect.-Treas of the Pioneer Title & Trust of San Bernardino spoke on "Trust Deed Foreclosure."

Tuberculosis & Diet

San Bernardino — This may seem hard to believe, but there are still people who believe that certain foods cure tuberculosis. They seem to think that some type of magic diet will stop the destructive work of tuberculosis germs in the patient's lungs and restore him to health in short order.

No tuberculosis patient was ever cured by diet alone. There are many aspects to the treatment of tuberculosis, basic among which is complete rest under medical supervision, preferably in a tuberculosis hospital.

At the tuberculosis hospital, in addition to his supervised rest, the patient may recevie other types of treatment, such as surgery or drugs dtpending on the type of his illness. His diet is also planned there to fit his specific needs and to give him strength to fight his illness.

The person who contracts tuberculosis need not worry about the diet that he should have while he is ill if he takes prompt steps to enter a tuberculosis hospital. The doctors will work with trained dieticians at the hospital to make certain that the patient gets the proper foods, in the right amount, to help him successfully overcome his disease."

(Ed Note — This may seem hard to believe, but there are still people who believe that hospitalization in the SMOG area can cure tuberculosis.)

"Fall Guy"

PIONEERTOWN — Some people apparently like to earn their living the hard way, at least Boyd Stockman, stuntman in the Gene Autry pictures, hasn't tumbled to the fact that there is an easier way to get money. Anyhow, he takes plenty of tumbles to earn his weekly poke.

As we shook hands with Stockman last Sunday at the Golden Stallion, he winced and said, "take it easy, I busted that hand a couple of weeks ago in a fall." "Have you a very big collection of broken bones?" he was asked. "Well," drawled Stockman (he's from New Mexico), "except for ribs, hands, pelvis, legs and head bones, not many." But when a stuntman takes as many as thirteen falls in one morning's shooting, anything can happen to the carcass, and quite often, etc.

Boyd got his start nine years ago in Tuscon, Arizona, where he fell for Betty Hutton, in "Incendiary Blond," and has been taking falls, spills, jumps, "flats", transfers, and doing fights ever since, for films of course, not Betty Hutton. On the present Autry pictures, already, besides the usual falls and transfers.

"What about the SPCA's control over stunts involving horses?" we asked him. "How do you get away with spilling horses?" "We can't trip them on the end of a long rope, anymore," replied Stockman, "but we use trick horses who just practically lay down and roll over when we pull down on the neck rein, at slow speed. On fast moving film it looks like the real thing." Very considerate for the horses, we think, but that sure doesn't make it easier for the poor stuntman, he still has to hit the ground.

Stockman is an actor, too, after all, the villain has to say a few nasty words to get into all those screen fights. Those speaking lines added to the falls make it much easier to take the tumbles, because it pays more money.

As the interview was ended and we shook hands, Stockman winced. 'Taint often we get a chance to do that to a tough guy. However, next time we meet him, we'll play safe and just say, "Howdy."

"TAKE YOUR CHOICE"

As the reader can well see, this is another political issue, and that partially accounts for the lack of regular news. We hope that our readers and contributors don't withdraw their support too long as a result of the politicians taking over most of the space for the last two issues, but, after all, they get their chance only once in four years in this paper.

We'd like to run a list of suggested candidates for the various offices, but being non-partisan we can only print statements and pictures of those who consider the pages of the Journal and the votes of this area as worthy of consideration. Many of the candidates have visited the Journal office and from our observation they appear to be capable men, so it would be difficult for us in the first place to fairly suggest which men would be the best qualified.

As the Primary is passed the campaign will become more interesting and in the final run-off some of the contests are going to get plenty hot. The big battles will be fought over the State Attorney General's office, the County Sheriff's office and the District Attorney's Office. It isn't coincidence that the offices of law enforcement agencies are the most vigorously campaigned for, since these three have been under fire for the past few years from reform and so-called "reform" groups.

Whether or not these offices are really guilty of "discrepancies" as has been charged, will not be decided by the people's vote. Any action will have to come from the State Crime Commission, or a County Grand Jury, IF there is reason for action at all. However, sometimes a change of personnel brings about a change of administrative policy. But if there be any malfeasance in any of these offices, why isn't it exposed instead of just being talked about! If any new candidates can better operate these offices, we're for 'em. If they can only accuse, without showing proof of their accusation, then we have less respect for them than the men already in office, competent, or not.

Political issues of other offices, however, seem to be centered more around giving better service for the taxpaper's money than whether or not "John" is a bad boy. And one might as well let the principle of "how-much-will-he-do-for-me" attitude decide his vote.

In the most bitterly contested office in County politics, that of the Sheriff's, the battle seems to be centered around which of two men, who have both been in and around the Sheriff's office for almost thirty years, is to get the "plum pudding" this time. But they both have to reckon with a third party who thinks that the Office of Sheriff has been a family football long enough and that this isn't a family squabble any more, and that it is time that this office gain the dignity it deserves and the respect of other law enforcement offices in California. We can only observe that certainly the law enforcement office of the largest county in the world deserves something more than a bad reputation, true, or not!

We hope the people make a wise choice.

Greenhorn Gardner

BY RUTH HALE

Last week Morongo Valley had an Antique and Hobby show. It was a very delightful affair with many exhibits of lovely antiques and a display of arts and crafts and examples of various hobbies. As I entered the room at the Lodge, a friend of mine said, "have you seen that table with the arrangement of petunias, it is lovely and if I had anything to do with wiving the prize, I certainly would give that the prize." Well, I swelled with pride for that was my hobby exhibit. I didn't get the prize, but I was happy to see so many people admiring my display of flowers.

When I was cutting the petunias, I noticed how much tougher the stems are than they were in the cooler areas where I had grown petunias before. Things seem to adapt themselves to their new environment very well.

It isn't too late to put in many kinds of summer flowers. The dwarf zinnias should do well here and I have found the French Marigold to be very satisfactory. Coc-mos, asters, african marigolds, and maiy others may be planted. If you can get the plants rather than planting seeds, there will be flowers much sooner. This year I wanted to have a showing in a hurry so I have bought the small plants at the nursery.

This is a good time to try and get the gophers before they get to the roots of your young trees. This morning as I was eating my breakfast I looked out and saw a gopher pushing the dirt up, so I hurried and got my trap, (I use a box trap as it is easier for me to set.) I dug down to find the lateral and have set the trap and hope to catch Mr. Gopher. I have been using the poison grain, too. If I find an open hole, I put some grain in and wash it down with the hose water. If you do use the poison grain, please be careful where you put it on account of your children and pets. Keep the box in a special place.

Don't take a chance! JOIN THE AMBULANCE ASSOCIATION TODAY!

THE JOSHUAS

Lowly Philosophy

By JUNE LeMERT PAXTON

FREEDOM IS MAN'S BIRTHRIGHT

It is mid-morning and I have wandered up into the rocky hills back of the cabin; I am looking for Canterbury-Bell seeds. As a rule in the spring, this hillside is aglow with brilliantly hued blossoms, but, this year, due to lack of moisture, there is scarcely a sign of any wild flowers. Neither has a rabbit, a snake, nor a tortoise come into sight.

After reaching a height from where I can see the Valley for miles and miles to the west, the south, and the east, I am resting on a huge rock. The rocks are comfortably warm and a gentle breeze is humming through the Juniper and Joshua trees. I am alone. Even were I to shout, not a soul could see nor hear me!

It is at times like this that the Great Spirit seems very near; so near that the breeze, catching the thought of Universal Mind, sings the message to whomsoever will take the time to listen.

This desert-home, that we call "THE JOSHUAS," is composed only of sand and rocks and chaparral; to some people it would not be worth two whoops, but to others it spells sunshine and freedom; freedom for the soul and mind and body!

MEL BIBBINS

Harvey in Hollywood

Hi Neighbors! Just to show you how this town of Hollywood operates, consider the case of CHILL WILLS. Chill, who is a really good actor, has been around these many years, and has done a lot of good parts in good pictures. But it took a mule to put him smack-dab on the corner of Security and Contract streets. Chill's voicing of the dialogue for "Francis, The Mule" has put him on top of the busy list. Yesterday . . (last Friday) Republic signed him to a 4-year pact that calls for 16 pics. The deal allows him to do the "Francis" voice in case UI decides to make a series around the long eared one, but otherwise it is exclusive. Chill's theme should be the old-time . . "Riding to Heaven on a Mule."

REX ALLEN, whom we say will be Republic's top cowboy within three years, is back in town from a p.a. tour of the country . . . and he gained thousands of new fans!

WHIP WILSON zigged when he should have zagged, and his trusty mount planted a hoof at trail's end . . but solidly. Whip is headed for the desert to bake out the ache now that his pic "Mexican Silver" is finished.

We like GEORGE E. PHAIR's Variety "Problem In Poetry": "A TV set," the salesman said, cements domestic ties. If you would live in harmony, get wise and televise." But now and then sweet harmony is bound to pull up lame, When She prefers a Godfrey show and He a baseball game."

That could also happen . . IN THE MOVIES!

SELF-SERVICE LAUNDRY MOVES TO 29 PALMS

TWENTWNINE PALMS — The Self-Service Laundry, which formerly was in business in Desert Hot prings, has moved to 29 Palms and is now set up and ready for business. Owned and operated by Chuck and Edna Lare, the Self-Service Laundry give a guarantee of satisfaction or no charge. They are equipped to handle everything from handkerchiefs to blankets, and offer both self-service and accomodation service.

Boyce Builds Addition

Mr. and Mrs. Boyce are building a 192 square foot store room on the back of their store so they can lay in a larger stock of Mdse. to accomodate their patronage.

New Jeweler and Family in Joshua Tree

Mr. and Mrs. Bert Gurney and son Fred have moved from Calimesa into the Smith Court in Joshua Tree where he is opening his watch repair and jewelry store June the first. Mr. Gurney learned the watch making game in England where the learning was hard and exacting, and we hear he really knows his watches. Mr. Gurney formerly owned the Watch Maker Farm on the road to Redlands before moving to Calimesa.

Church Notes

GOD, THE ONLY CAUSE

CHRISTIAN SCIENCE TEXT

"God the Only Cause and Creator" is the subject of the Sunday Bible Lesson in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston. The Golden Text is from Jeremiah: "He is the former of all things; and Israel is the rod of his inheritance: The Lord of hosts is his name."

The following passages from Isaiah and the Psalms are included in the Scriptural citations: "As the earth bringeth forth her bud, and as the garden causeth the things that are sown in it to srping forth; so the Lord God will cause righteousness and praise to spring forth before all the nations." "The Lord is racious and full of compassion. . . . The works of his hands are verity and judgment; all his commandments are sure. They stand fast forever and ever, and are done in truth and uprightness."

On this subject Mary Baker Eddy says in "Science and Health with Key to the Scriptures:" "Spiritual causation is the one question to be considered, for more than all others spiritual causation relates to human proress. The age seems ready to approach this subject, to ponder somewhat the supremacy of Spirit, and at least to touch the hem of Truth's garment.

Morongo Valley — Twentynine Palms

20 YEARS EXPERIENCE AS A TRAINED PEACE OFFICER —

F.B.I. SCHOOLING — ALSO YEARS OF DESERT EXPERIENCE

JOHN W. ALLEN ADVOCATES THE APPOINTMENT OF A REGULAR DEPUTY FOR THE EXTENDED AREA AND PLEDGES HIMSELF TO WORK TOWARD THAT END WITH COUNTY OFFICIALS.

VOTERS
Here Are the Facts - - Don't Be Mis-led!

In a sympathy campagin — the same tactics used in the last election for Constable — erroneous information regarding PENSIONS is being spread through the Valley.

Briefly, here are the facts as given by a MEMBER OF THE RETIREMENT BOARD!

The present Constable, if defeatad, may elect to leave his contributions in the Retirement Fund and be granted deferred retirement to become effective at age 55. Retirement at age 55 would pay him about 75 per cent of the amount he would receive at age 60.

TO SUM UP THE FACTS, AFTER HE IS DEFEATED, HE WOULD NOT LOSE ANY OF THE PENSION BENEFITS HE HAS ALREADY ACQUIRED

According to County Records, the incumbent Constable will reach age 55 in May, 1951. Therefore he would need to be elected for TWO MORE TERMS, not just one, to obtain full retirement benefits.

THE ELECTION OF YOUR CONSTABLE WILL BE SETTLED AT THE PRIMARIES

Vote June 6 - - 1950

Gov. Earl Warren Confers With San Bernardino Hosts

Governor Earl Warren, who is running for reelection on June 6, was a visitor to San Bernardino county Wednesday of last week, and expressed his whole-hearted interest in the progress and development of the desert areas of this county. He cited the improved highway conditions which have been made possible through close cooperation between federal, state and county offices, and noted the efforts that have been made by the state to insure the best in water resources development.

Governor Warren's campaign in San Bernardino county is co-chairmaned by Will Seccomb, Democrat, and Fred B. Mack, Republican.

George W. Savage of San Bernardino, publicity chairman for Warren in this county, and former executive secretary of the California Highway Commission, visited Joshua Tree, 29 Palms and Yucca Valley recently in the Governor's interest.

GROUP SURVEY OF DESERT SMALL TRACTS

Legal, Accurate Survey at Low Cost

We have a highly competent, licensed land survey party, with 18 years' experience in desert surveyiny, working in the field near your property. We also have available two other experienced, licensed survey parties.

Now is the time to join this cooperative group survey so that you can know exactly your boundaries and corners of your land. You save quite a sum by joining. A single 5-acre tract, if properly done, costs so much when surveyed alone that it is impractical to do just one tract.

MOORE'S GROUP SURVEY of desert small tracts includes RIGID SPECIFICATIONS AND DIRECTIONS for a complete licensed, accredited, and legal survey under Federal, State, and County laws. All corners of your tract will be marked by a two-inch square redwood, bright colored stake 14 to 16 inches long set two inches out of the ground. Near each stake will be placed a 3 ft. lath with a white streamer flying, to easily locate your stakes. All four stakes will carry your tract number.

You will receive a vicinity map showing convenient roads and highways to property. You will also receive a copy of the county survey map of record showing your tract number, legal description, location of your land, and much other data This map is filed in the County Surveyor's and Recorder's office at San Bernardino. This type of legal survey will stand up in court and can be handed down to your heirs.

As field work in a section for one or for 128 five-acre tracts costs about the same, it is important that we get as large a number as possible to join this survey job. We expect to do this work for you for $25.00 to $30.00 per tract. Send complete legal description of your land at once so that we may get this group together without delay and start work promptly in the field. Include stamps for reply.

(P.S. — Plenty of fine, 5-acre tracts, $10 to $20 an acre, in new sections, too)

Barone Closes Cafe

YUCCA VALLEY — The Barone Italian Restaurant which opened only last month closed its doors last Sunday, May 21st, when Mr. Barone moved back to Los Angeles to accept a chef's job at one of L. A.'s popular Italian restaurants. Mr. Barone, who was hardly here long enough to get acquainted has an interesting background. While in Italy he was a member of both the King's Guard, and Pope XII Guard. Was considered one of the country's top bass drummers when he played with the Victor Recording Band of New York.

Allen Desert Trained

TWENTYNINE PALMS — John W. Allen, candidate for Constable, is a desert trained man, too, having been Constable in three other districts of San Bernardino County. Mr. Allen received his positions under Civil Service examination in competition with other aspirants. During the war years, Allen was Lieutenant in charge of the largest Sheriff's sub-station in Los Angeles County, on night duty, where eighty-two deputies were on the force.

Mr. Allen retired from the Los Angeles County Sheriff's force in '47 and moved to the desert for his wife's health. He has since been employed as merhcant patrolman in Twentynine Palms. Mr. Allen believes that we should have another full-time deputy-Constable in the Joshua Desert since the area to be covered and the increasing number of duties warrants it.

Bittner Seeks Comptroller Office

William E. Bittner, business man of La Jolla and Democratic candidate for the office of State Controller of California, to day issued the following statement:

"If I am elected to the office of Controller there are going to be a few hundred jobs open immediately. The political henchmen and the political 'possums' will be a thing of the past in the office of Controller.

This office will immediately be given back to the people — the very best qualified people for the offices within the Controller's department. I shall have no political debts to pay when I am elected; therefore the offices will be given to the most qualified men and women."

JUDGE
OF THE
SUPERIOR COURT
- PAST PRESIDENT COUNTY BAR ASSN
- TRUSTEE, PRESBYTERIAN CHURCH
- PAST PRESIDENT ISAAC WALTON LEAGUE OF SAN BERNARDINO COUNTY
- PAST PRESIDENT KIWANIS CLUB OF SAN BERNARDINO

VOTE FOR
R. BRUCE FINDLAY
JUDGE OF THE SUPERIOR COURT
—PRIMARY, JUNE 6—

(Continued from last issue)

Since coming to this county, Mr. Findlay's activities, aside from his extensive law practise, have been almost as varied as his early life occupations. He was president of the county-wide organization of the Issac Walton League. He is past president of the San Bernardino Kiwanis Club; also past president of the Home of Neighborly Service on Mt. Vernon Avenue in San Bernardino. He was, for approximately ten years, secretary of Riverside Presbytery, a bi-county organization of the Presbyterian Church. As such secretary, he had much to do with the building of the Community Churches in Palm Springs and Twentynine Palms and the Little Church of the Pines at Crestline, as well as other structures in both San Bernardino and Riverside Counties. He has been active over the past two years in assisting to provide this county with professional baseball by hleping to organize and support the San Bernardino "Pioneers" in the Sunset League.

He and Mrs. Findlay are the parents of two sons and two daughters. The elder daughter is the wife of a Sacramento banker; the elder son is an engineer with the State Highway Department at San Bernardino; the younger daughter is a draftsman for the Pacific Telephone Company in Los Angeles; and the younger son, still in college, is preparing for the study of law.

Operation Bonus

Last week's winner was Bertie Sexton. If you find your name in the adv. section the Joshua Journal will pay a bonus.

Desert Good Substitute for Test Tube

We just finished reading a revolutionary story in the Legion Magazine about a new discovery for the cure of arthritis, which promises a happier life for America's seven million sufferers. However, there's a flaw in it, as there usually is whenever something for the mass relief of human suffering is announced. Cortisone, the new drug, is the miracle healer, and it really works, but alas, there isn't enough to go around, so most of those seven million will just have to go on suffering, plus all the new ones that add to the list each year.

Cortisone takes thirty-seven processes to reach its refined state and even its raw material is rare, so that leaves us back where we started, with our poor, old aching joints, except for a lucky few. But the story doesn't end there. Naturally medical science is going to go into mass production on Cortisone, and look for another faster and cheaper way to relieve arthritis in the meantime. So that leaves us with but one method of relief, the desert climate, mother nature's sure-fire remedy that has helped thousands to happy relief from suffering.

We know of dozens who have taken to the desert hills to escape the pain and torture of arthritis The Joshua Monument Desert is the best relief for rheumatic pains that we know of. It doesn't take thirty-seven processes to get results, either, and there's plenty of it to go around.

THE TURKEY GROWERS PAGE

ASSEMBLED ON THIS PAGE EACH WEEK ARE NEWS ITEMS OF INTEREST TO THE TURKEY GROWERS OF THE DESERT AREAS

Frozen Assets

Years ago man's ability to store perishable foods was limited by the size of a handy snow bank in winter or by the amount he could eat at a single sitting during the hot days of summer. Today that picture has been changed by modern refrigeration. On the farm and in the home spacious walk-in refrigerators, home freezers, or refrigerators — operated by electricity — have solved a vexing food problem. Large commercial cold storage plants are able to store perishable crops and products throughout the year. "Frozen assets" may have an unpleasant ring as a financial term, but electrical refrigeration has given it a new meaning when applied to food.

Sunfair Notes

Bob Burns was a guest last week of Chester R. Bunker at his Cabin here . . . Also Bill Bunker and his wife Norma. Bill has withdrawn from Merchant Marine service and plans to stay around a while . . . Lou Housley is visiting sister Mary Burson over the holidays . . . Alma Summers insists that they are going on a vacation this winter (summer generally takes a vacation in winter, doesn't it?) . . . Bonnie and Dick King are on a short vacation to Salt Lake this week . . . Mr. and Mrs. A. B. Anderson of Beverly Hills, friends of the Forrest Summers were visitors Saturday (how do you get to 29 Palms?) . . . . Turkey growers had three interesting meetings last week. Don King of Twentynine Palms spoke at the Wednesday meeting on operation of butane brooders. At the Thursday meet Mr. Crawley of the Whey-Products by Peebles gave a very interesting discourse on nutrition. Mac Andrews spoke to the growers Friday on general information concerning turkey feeds, and other raising problems. 'Tis found that a better attendance is had by holding the meetings at the Cantina garden these balmy evenings . . . Wow! Some parties they're having at the Cantina on Sattidy nites. Square dancin' in the street, even. Mr. and Mrs. T. Frye celebrated their twenty-first wedding anniversary Monday night . . . Roselle Fetherston and friends from H'wd spent the holidays at the ranch with Eddie . . . Mrs. Elwood Anderson and children are visiting the Chas. Kings this week. Mr. and Mrs. E. N. Harmon were up over the week end to the Silver Dollar Ranch . . . The Forrest Summers clipped turkey wings last week, and Alma has material for a hat, or so, she thinks. Did you really burn all those feathers, Forrest? Shame, shame! . . . Mrs. Peterman and Mrs. Palmer of Pasadena were out for the week-end at the Peterman Cabin. Mr. Peterman was granted permission to form a utility company under his own name; story and particulars, next week.

"Turkey Talk"

Dear Editor:

I understand that you folks are growing about 70,000 turkeys in Sun Valley this year. Since not all of these are put into the brooder at the same time, I am sure not all folks have the same problems concurrently. I was thinking that it probably would be advisable if I could run out there some evening and meet with your growers and discuss some of the problems that might be confronting them. I do not think that my time will allow for getting out a weekly turkey article such as I am now doing with the poultry.

Joe Hertel — Farm Advisor

Places to Eat in Sunfair

The Cantina

Veteran vs Poultryman

(Continued from last issue)

These facts joined together lead to success. A genuine interest with a desire to learn and a drive to do things, usually leads to the top. Leadership with the proper a successful organization.
human relations and records builds

The poultry industry is still in its infancy. Forty years ago only a few of the colleges gave courses in poultry husbandry. Vitamins were unknown then. But today one individual would have difficulty reading all the reports on vitamins alone. Today hundreds of students in America are taking four year courses in poultry farming and thousands of servicemen are training to become poultrymen. Together they should help solve the problems and provide the answers for many questions now being brought to the farm advisor such as these: "What is the best breed of chickens?" "Shall I build houses or hen cages?" "Is it better to feed all mash or grain and mash?" "How much green feed should I provide?" "When should I vaccinate?" Should I use live or killed virus?" and many, many other questions. The answer by the teacher or the agricultural advisor of the future will probably not vary greatly from that of today. This is, that different people prefer different breeds and usually do best with the kind they like. The same applies to houses. The man who wants hen cages should not build hen houses and vice versa. Successful poultrymen have worked out a system that works on their farm. A neighbor may be just as successful and use another method. But the large commercial operator of today was a very small poultryman 20 to 25 years ago. It was by a study of his methods, by thrift and by time saving methods that he expanded to a two or a three man poultry farm. A number of the local farms who have treated their help as they have the members of their own family and have provided adequate housing and social conditions, hvae greatly benefited thereby. Others who expand and hire labor must get a new hired hand every 30 days. It is impossible to become a large successful commercial operator under such conditions.

The large commercial poultryman of the future is the ex-serviceman of today eager to learn all he can and who is over at the neighbors helping his buddy in his spare time to vaccinate a lot of pullets.
